Re: CTE Program Evaluation & 5 Year Plan

Attached is a copy of the Career and Technical Education Program Evaluation and 5 Year Plan for your approval. Districts are required to evaluate the effectiveness of their CTE programs on an annual basis. Through a planned process, CTE programs must be evaluated and reviewed, these results of said evaluation must be used to inform continuous program improvement.

Our CTE program staff initially conducted the attached evaluation. It was then reviewed with the Stanwood-Camano CTE Advisory Committee. The Advisory Committee approved the program evaluation.

#### Recommendation:

Approve the 2019 CTE Program Evaluation and 5 Year Plan.

## CAREER & TECHNICAL EDUCATION ADVISORY GROUP GOAL SETTING PROGRAM AREA: CTE GENERAL PROGRAM

**GOAL AREA: Curriculum**

| Industry standard software & equipment Relevant to Industry, tied to industry standards. Course competencies are met and frameworks are current.   |  |                            | Keeping up with changing technology Curriculum doesn't offer all the types of classes that students might want to take. Need to increase the implementation of using local "experts" in my business education content area. |  |          |  |
| Curriculum: Employer-based skills, standards, and assessments are integrated in program curriculum.  3- The curriculum is current and aligned with industry practice, and shows evidence that some students acquire leadership, academic, and industry-defined skills.  Framework: A framework is a guide and a tool that aligns National and Industry Standards to State Core Content Standards, Performance Assessments, Leadership, Employability, Relevance to Work and Thinking Skills all in one document.  3- Framework is complete, error-free, thoroughly aligned to content taught, and updated at least annually.  Safety: Due to the nature of the applied Career and Technical Education curriculum, staff and student safety is an increased concern.  3- Students and staff actively monitor safety of themselves, guests, and equipment, documenting frequently. |  |                            |   |  |          |  |

PROGRAM AREA: Business Education

#### **ANNUAL FOCUS/ 5 YEAR PLAN:**

Current Year Focus (2018-19)

Establish and maintain a professional approach to implementing the worthwhile goals as outlined in this document. Develop an increased sense of collegiality to stay accountable, and establish a year-end review to evaluate (and adjust) as needed.

Next Year Focus (2019-2020)

Continue to develop and deepen the commitment to the goals and principles outlined in this document. Establish continuity in our collegiality as we seek accountability.

Year After That Focus (2020-2021)

Move in to new facility. Vision cast for the new facility; look for opportunities to develop increased collegiality. Assess new/changed focus areas for BSED courses (as needed). Commit to ongoing professional improvement of pedagogy.

3 years from now focus (2022-2023)

Revisit the vision casting from previous year as we ask ourselves- how effective is the BSED department in meeting the wants and needs of our students at SHS? What new courses and/or programs need to be implemented to better target our student customers?

5 Years from now focus (2023-2024)

Develop a long-term professional approach to pedagogy, programs, courses and mutual activities that promote collegiality in the instructional staff and opportunities for students to thrive in the professionalism of our BSED department.

| Current Year Focus<br>(2018-19)       | Grow student leadership program.   |
|---------------------------------------|--|
| Next Year Focus<br>(2019-2020)        | Development of CTE Dual Credit Articulations Review and purchase instructional materials |
| Year After That Focus<br>(2020-2021)  | Move in to new facility Implementation of interactive instructional materials            |
| 3 years from now focus<br>(2022-2023) | Develop internship program and other outreach opportunities for students                 |
| 5 Years from now focus<br>(2023-2024) | Renew articulations and review of instructional materials.                               |

# Stanwood-Camano School District Career & Technical Education Department Program Evaluation

Districts must evaluate the effectiveness of their Career and Technical Education (CTE) programs on an annual basis. Through a planned process, CTE programs must be evaluated and reviewed and the results of said evaluation must be used to inform continuous program improvement. The program evaluation should align with the District-Wide Plan for CTE, and be conducted in coordination with the General Advisory Council. As part of each such evaluation, each CTE Program shall:

- Ensure program alignment with the District-Wide Plan for CTE strategic plan.
- Assess strengths and weaknesses of CTE programs, including an analysis of any disparities or gaps in the performance of different categories of students.
- Ensure CTE students are being provided with strong experience in, and understanding of, all aspects of the industry the students are preparing to enter.
- Measure the success of the programs in meeting identified goals.
- Result in improvements in, revisions to, or discontinuation of the program.
- Please upload your Annual Program Evaluation for CTE.

Based on the CTE Program Evaluation, districts must establish a Program of Work for their CTE Programs that is updated annually and establishes a five-year plan to improve the Career & Technical Programs available to students. Through a planned process, CTE programs must be evaluated and reviewed and the results of said evaluation must be used to inform continuous program improvement.

The attached CTE Program Evaluation and Five Year Plan has been reviewed and approved by the Stanwood-Camano School District Career & Technical Education Advisory Committee and the Stanwood-Camano School District Board of Directors for the 2018-19 School year with action steps to be implemented during the 2019-20 school year.
